6th IAPSM YLNC 2025 Goa

Pre-Conclave Workshop

HOW TO BUILD & LAUNCH YOUR ONLINE COURSE USING AI TOOLS : A HANDS-ON TRAINING

In today's digital era, healthcare professionals and institutions must go beyond traditional boundaries to remain visible, impactful, and future-ready. With the rapid adoption of e-learning, and digital health platforms, there is an urgent need for medical educators and clinicians to build their personal brand and leverage online education platforms to share their expertise at scale. This workshop addresses this growing need by equipping participants with practical skills to create their own branded digital presence and design structured, high-quality online courses. By doing so, faculty and healthcare professionals can:

- Extend their academic reach and influence beyond classrooms and conference halls
- Contribute to global medical education through scalable, accessible content
- Generate alternative academic and professional opportunities through digital platforms
- Support institutional advancement in accreditation processes such as NAAC and NIRF, by showcasing our academic excellence, outreach, and innovation

**5th December
2025**

9AM TO 5PM

Department of Community
Medicine, 7th Floor Super-
Speciality Block, Goa Medical
College

Resource Faculty

Dr. Sajjan Madappady
Digital Health Consultant
BGS Medical College and Hospital,
Adichunchunagiri University

Dr. Anu Mohandas
Associate Professor,
Community Medicine; Member Secretary, DHAIC.

OBJECTIVES

- To provide hands-on training for designing and launching an online course using AI tools, including content creation, platform selection, and learner engagement.

SESSION OUTCOMES

By the end of the workshop, participants will be able to:

- Design and structure an online course, including content creation and learner engagement elements.
- Utilize digital tools and platforms to launch and manage their own online education platform effectively.
