

6th IAPSM Young Leaders' National Conclave

Data, Digitalisation and Decisions: Youth at the Forefront of Health Tech

Pre-Conclave Workshop

Systemic Review and Meta Analysis

Brigadier (Dr.) Kunal Chaterjee
Prof & HOD, Department of
Community Medicine
Armed Forces Medical College,
Pune

Dr. Seema Patrikar
Senior Lecturer in Statistics &
Principal Investigator,
HTAIn Regional Resource Centre
Armed Forces Medical College, Pune

Lt Col (Dr.) Kapil Pandya
Associate professor
Department of
Community Medicine
Armed Forces Medical College,
Pune

Dr. Madhurima Ghosh
Health Economist at HTAIn
Regional Resource Centre
Armed Forces Medical College,
Pune

Date: 5th December 2025

Venue: Super Speciality Block, Goa Medical College

Limited Seats

Pre-Conclave Workshop

SYSTEMATIC REVIEW AND META ANALYSIS

**5th December
2025**

2PM TO 5PM

Department of Community
Medicine, 7th Floor Super-
Speciality Block, Goa Medical
College

Systematic Reviews and Meta-Analysis (SRMA) are cornerstones of evidence-based healthcare and play a vital role in synthesizing the best available evidence to guide clinical and policy decisions. With the rising emphasis on evidence-informed health interventions, it is essential that young researchers and faculty acquire robust skills to conduct high-quality systematic reviews and meta-analyses. This workshop will enhance the capacity of participants to plan, conduct, and report SRMAs following international standards.

Resource Faculty

Brigadier (Dr.) Kunal Chatterjee
Prof & HOD, Dept of Community Medicine
Armed Forces Medical College, Pune

Lt Col (Dr) Kapil Pandya
Associate Professor
Department of Community Medicine, AFMC Pune

Dr. Madhurima Ghosh
Health Economist at HTAI Regional Resource Centre
Armed Forces Medical College, Pune

Dr Seema Patrikar
Senior Lecturer in Statistics & Principal
Investigator, HTAI Regional Resource Centre
Armed Forces Medical College, Pune

OBJECTIVES

- To introduce the fundamentals and significance of Systematic Reviews and Meta-Analysis.
- To build skills in framing research questions, developing protocols, and conducting comprehensive literature searches.
- To provide hands-on training in study selection, critical appraisal, data extraction, and synthesis.
- To demonstrate meta-analytic techniques using appropriate software tools (RevMan/STATA).
- To discuss best practices for reporting and publishing SRMA findings.

SESSION OUTCOMES

- Participants will understand the key steps and methodology of SRMA.
- Participants will be able to develop a structured SRMA protocol.
- Participants will gain practical skills in using software for meta-analysis.
- Participants will be equipped to contribute high-quality systematic reviews to scientific literature and policy development.
