1. About the Department

The Department of Plastic Surgery and Burns was created in Goa Medical College on 11th December 2015. However dedicated Plastic Surgery services were available in the Department of General Surgery since 2001 and an independent Plastic Surgery Unit was created in January 2006. After the establishment of the department, a twelve bedded ward was commissioned in November 2016 and in April 2018, a state-of-the-art Burns Unit for twelve patients was inaugurated. The Plastic Surgery OPD was shifted to the Super Speciality Block in May 2022 and consultation is available on Monday, Wednesday, Thursday and Saturday. Besides Plastic surgery, subspeciality clinics in Craniofacial Surgery, Aesthetic Surgery, Hand Surgery, Lymphedema and Cryotherapy are being conducted regularly. The department was permitted a post graduate teaching program in MCh (Plastic and Reconstructive Surgery) by the National Medical Council in 2021 and the first postgraduate student successfully obtained his degree in April 2025
